

- The staff of the library issues the text books and reference books to the teachers for their teaching purpose.
- The Central library has the collection of various daily newspapers in it. The students and the staff of the college can avail the facility of reading the newspapers.
- The Departmental libraries also supplement the Central library services.

4.2.8 What are the special facilities offered by the library to the visually/physically challenged persons? Give details.

The college is concerned about the needs of specially-abled students. Teachers & librarian offer personal assistance to such students when need arises. Braille software is available in college but book selection procedure is not yet Braille-supported.

4.2.9 Does the library get the feedback from its users? If yes, how is it analysed and used for improving the library services. (What strategies are deployed by the Library to collect feedback from users? How is the feedback analysed and used for further improvement of the library services?)

The library of this institution has no separate feedback system at present. But there is the provision of issuing the feedback forms to the final year students of this college. There is also the option of library feedback, in the said feedback form.

4.3. IT Infrastructure:

4.3.1. Give details on the computing facility available (hardware and software) at the institution.

Available hardware

1. Computers

A. Teaching Department

4.3.2 Detail on the computer and internet facility made available to the faculty and students on campus and off-campus?

- The campus is fully wifi-enabled.
- All departments have been provided with laptops with WiFi connectivity and pen drives.
- Faculty and students can avail of the facility of state-of-the-art central computer labor equipped with 14 machines with the latest configurations.
- Most of the departments, which have computer applications as a part of their curriculum, their own computer labs.
- All others department can access computers and internet facility for the faculty and student the campus.
- The library also extends computers and internet facility and bibliographic databases through networked system.

No facility is set up yet for off-campus.
